

Lighting and landscaping has been completed on the **surface parking lot along Cherry Hill Road.**

Town Square Park: Canton's newest park will come to life over the spring and summer as contractors install infrastructure to build out a beautiful space for walking, picnics, leisure, public restroom, and community events. This new park will open in the fall 2026 as a gathering space for all our neighbors to enjoy. Early on in the project site work will be done to add paths, landscaping, and greenspace. While everyone will be eager to explore, we ask for your patience until the construction project wraps up.

The Factory Building continues construction as the interior renovations are progressing. Exterior landscape, sod, outdoor lighting and a steps have been added to complete the exterior finishes of the property.
